# The system works....

## Elements of the CertainTeed Integrity Roof System

### A superior roof is stronger than the sum of its parts

A quality roofing system involves the underlayments, shingles, accessory products, and ventilation all working together. Day after day, year after year.

#### At CertainTeed, we call that the Integrity Roof System™

The Integrity Roof System is designed to provide optimum performance — no matter how bad weather conditions are. After all, better quality shingles mean longer-lasting roofs. Add in underlayment, accessories, and ventilation products, and you've got a roof system that really works.

### SureStart™ Protection

All CertainTeed shingle warranties include SureStart coverage, which offers additional protection against manufacturing defects during the critical early years after installation. SureStart covers the cost of labor and materials required to repair or replace any shingles proven defective\*.

When you choose an Integrity Roof System you also gain a single manufacturing source that stands behind all of the roof system components. You will appreciate this one-stop advantage should any warranty issues need to be addressed.

### How Can We Help?

For more details about the Integrity Roof System or any of the information contained in this brochure, visit the CertainTeed web site at [www.certainteed.com](http://www.certainteed.com) or call us at 800-782-8777.

\*See actual warranties for full details.

*Insist upon the INTEGRITY ROOF SYSTEM and get the ultimate in roof performance!*

### WinterGuard™ Waterproofing Shingle Underlayment

#### Protection for vulnerable areas

Designed to prevent leaks from wind-driven rain and ice dams. WinterGuard is especially effective on low slopes, flashing areas and in valleys. WinterGuard is required as a valley liner in closed valleys and also recommended for open valleys. In certain areas of the country and snow zones, WinterGuard is required at the eaves as ice dam protection.

### Roofers' Select™ High-Performance Underlayment

#### A secondary barrier against leaks

Roofers' Select provides a protective water-resistant layer over your roof deck. Reinforced with fiber glass for exceptional wrinkle- and tear-resistance, Roofers' Select or an acceptable alternative underlayment is required.

### Shingles & Accessories

#### Beauty and performance

High-quality shingles are available in a wide variety of styles and colors covered by one of the best warranties in the business. Hip and ridge accessories provide the perfect finishing touch. Shingles with a 25-year or greater warranty duration, are required. Flintlastic® roll roofing products are available for porches, carports and any flat roof areas. Effective ventilation helps guard against premature roof deck deterioration and provides year-round benefits. A properly balanced ventilation system is required.
